Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region InterLATA  
Services Pursuant to Section 271 of the Telecommunications Act of 1996  
Docket No. 2001-209-C

Dear Mr. Terreni:

Enclosed for filing are the original and 10 copies of BellSouth Telecommunications, Inc.'s ("BellSouth's") proposed performance data change Notification Report for January 2006. Ordinarily BellSouth would be filing a Preliminary February 2006 Report at this time; however, there are no changes proposed for February data. This proposed data change Notification Report is being provided to inform the Commission of the changes BellSouth plans to make to its Performance Measures Analysis Platform ("PMAP") with January 2006 data. A Data Disclosure Report would be filed at this time as well, if needed; however, there are no additional South Carolina validated data issues to be disclosed that affect performance measurement calculations for which a fix has not yet been scheduled.

There is one additional matter that BellSouth would like to bring to the attention of the Commission and the parties. In its June 2005 Data Notification filed on June 6, 2005 (Item No. 5), BellSouth provided notice of its proposal to calculate the Z score for the P-3 Measure using the total volume of service orders rather than the volume of missed appointment records. Although BellSouth expected to make this change with June 2005 data, it was implemented with October 2005 data instead.

Sincerely,

Patrick W. Turner

## PROPOSED JANUARY 2006 DATA NOTIFICATION

BellSouth proposes making the changes described in this document to generate results for the January 2006 data month. Results for the January 2005 data month will be posted as follows.

Preliminary results	February 20, 2006
Final results	February 28, 2006

BellSouth provides Data Notifications each month in compliance with the Georgia Public Service Commission's Order of July 19, 2002. This order specifies that when BellSouth proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

The "Affected Measures" described in this notice are those set forth in the Georgia Service Quality Measurement ("SQM") Plan, unless otherwise noted. All "Impact of Change" descriptions are stated at the measurement level, unless the sub-metric level is specified.

Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, LMOS, WFA, etc.) that PMAP uses to calculate measurements. BellSouth will make changes to PMAP to ensure that data continues to be correctly captured as Releases are implemented.

### Ordering Measurements

(1) *Affected Measures:* OSS-2

*Description of Change:* Currently, BellSouth is not reporting RNS data on the 12-month report for this measure. BellSouth proposes to display RNS data on the 12-month report as well as the Aggregate report. (RQ7468)

*Impact of Change:* None.

(2) *Affected Measures:* OSS-2

*Description of Change:* Currently, LAUTO data appears on the 12-month report but does not appear on the Aggregate report for this measure. Bellsouth proposes to add LAUTO data to the Aggregate report (RQ7848)

*Impact of Change:* None.

SC PUBLIC SERVICE  
COMMISSION

### **Provisioning Measurements**

- (3) *Affected Measures:* P-13B

*Description of Change:* Currently, BellSouth joins two temporary tables to obtain LNP Trigger records to be included in this measure. BellSouth has identified a more efficient and accurate method of capturing SOCS S&E data for monthly PMAP processing. This proposed change was Item (1) on the Preliminary January Data Notification filed on November 1, 2005. (RQ6787)

*Impact of Change:* Minimal. For May 2005, in Georgia, the result would decrease by .03%. In Alabama, the result would decrease by 0.16%. In Louisiana, North Carolina and Tennessee, the results would decrease by 0.07%, 0.02% and 0.24%, respectively. There is no impact to the results in Florida, Kentucky, Mississippi and South Carolina.

- (4) *Affected Measures:* P-1, P-2, P-3, P-4, P-5 & P-9

*Description of Change:* Currently, Local Interconnection Trunk records, with an ACNA Code that does not appear in the Company Lookup Table are being set as BellSouth records. BellSouth proposes to modify the code to assign an error to invalid ACNA codes. This proposed change was Item (2) on the Preliminary January Data Notification filed on November 1, 2005. (RQ7039)

*Impact of Change:* For August 2005, in Louisiana, 2 of 1014 trunks (0.197%) were incorrectly identified as BellSouth records. No records were identified in Georgia or Florida. For September 2005, no records were incorrectly identified in the BellSouth Region.

### **Billing Measurements**

- (5) *Affected Measures:* B-2

*Description of Change:* Currently, PMAP is double reporting affiliate CABS records in the BST Aggregate Average. BellSouth proposes to remove the double counting of these records. This proposed change was Item (3) on the Preliminary January Data Notification filed on November 1, 2005. (RQ7625)

*Impact of Change:* For August 2005, BellSouth double counted 2 affiliate records associated with meet-point billing (independent trunks) in Georgia and 1 in Alabama (a cellular circuit). The measurement impact would change the BellSouth reported result from 3.91 to 3.72 in Georgia, and from 3.45 to 3.90 in Alabama. There were no other records identified for this month in the Region. This proposed change was Item (3) on the Preliminary January Data Notification filed on November 1, 2005.
